2A Computing and Financial Management

Skills

- **Proficient:** MS Office, Social Media, Markdown
- **Working:** C, HTML/CSS, Javascript, Git
- **Learning:** Python, Android dev, Bash

Experience

Assistant to the Director of Women in Computer Science (WiCS)

University of Waterloo   *May - Aug 2017*

- Organized, promoted, and facilitated 3 events attended by over 40 female undergrads to improve their technical interview skills
- Outlined curriculum for girls to develop Android apps for the Technovation coding challenge
- Updated the WiCS website dated from 2011 to reflect new activities and statistics

Projects

life.log (hosted on GitHub)   *Jan 2017 - Current*

- Built using GitHub pages, Jekyll, and Bootstrap
- Restarted interest in webdev after a 2-year hiatus
- Documents feelings re: job hunt, interviewing, and working

Activities

Floor Patrol, Door Guard

Hack the North 2016   *Sept 2016*

- Ensured event security by acting as a door guard throughout the evening
- Conversed with 50+ hackers working on a variety of projects to improve their HTN experience

VP of Training/Coding

Bayview Technovation   *Jun 2015 - Jun 2016*

- Taught basic coding concepts to 20-30 high school girls using the MIT App Inventor in preparation for the Technovation Coding Challenge
- Coordinated coding and mentoring sessions with other VPs to bring in university students involved in WiSTEM/WiCS projects to help inform us about women in tech

Participant: Google Code-in 2015, Hacktoberfest 2016
Member: Women Techmakers, Anita Borg Systers

Education

Candidate for **Bachelor's in Computing and Financial Management**

University of Waterloo   *2016 - 2021 (projected)*
